### INTERNATIONAL CONFERENCE

## *Inequalities, Skills and Globalization*

21-22 June 2012, Lille FRANCE

---

*The conference aims at gathering the most recent analyses concerning the economics of growing inequalities and changing poverty within both advanced and emerging countries, with a special emphasis on their links with the process of globalization and on the relationships between inequality, skill and education.*

Both theoretical and empirical works on the multiple dimensions of the dynamics of inequalities within globalized economies are welcome.

### Main topics

The main topics of the conference are:

1. The **impacts of globalization** (North-South trade, capital mobility, multinationals, FDI) upon inequalities and poverty in both advanced and emerging countries.
2. **Inequality, skill and employment**: restructuring and skill obsolescence, in-work poverty, inequality-unemployment trade-off...
3. **Technical change** and inequalities.
4. **Institutional changes** (tax system labour market institutions, tax and social competition etc.), inequality and poverty.
5. **Intergenerational** transmission of skills, under-education trap, **education** and inequality.
6. **Measuring** inequality and poverty.
7. The **public policies** against inequality/poverty and their assessment.
8. **New poverties**.
9. **Migrations** and inequalities.
10. Inequality, **growth, welfare and efficiency**
